

FREE WINE BOTTLE RE-SEALERS

Instructions for Sending Open Wine Bottles Home with your Customers

THE LAW:

On-premise permit holders may allow their customers to take home partially-consumed bottles of wine purchased on the premises.

The law requires the permit holder to ensure that the bottle is “securely resealed . . . in such a manner that it is visibly apparent if the bottle has been subsequently opened or tampered with.”

THE PREMIUM BEER & WINE SPECIALISTS BOTTLE RE-SEALER

USING BOTTLE RE-SEALERS:

To comply with the law, permit holders should have their employees firmly replace the cork into the bottle as far as practicality permits and affix a re-sealer over the top of the cork and down the sides of the bottle. If the bottle is damp (from condensation or having been served in a container of ice), the bottle should be wiped dry before applying the re-sealer.
